

## It is possible: Our Local Democracy Can Be Better

### It is possible: Our Local Democracy Can Be Better

Democrats 66 (D66) Noordwijk wants people to regain trust in local politics. This can only succeed if residents feel heard and involved. We want a municipal council that listens, explains clearly, and works together with residents. We ensure clear rules and fair governance. Council documents will be written in understandable language. Residents will have more influence, for example through a citizens' budget and a citizens' assembly. We will also ensure transparency about how money is spent. We solve problems by looking at their root causes. Local media help to keep residents well informed. We are working on a strong municipal organization so that knowledge is retained and vacancies are filled more quickly.

### It is possible: Living in Noordwijk

D66 Noordwijk wants sufficient housing for first-time buyers, families, seniors, and people who urgently need a home. We will make better use of existing housing and help people move to homes that better suit their needs. We build sustainably and with attention to the neighborhood. We will accelerate the construction of social housing, especially on publicly owned land. We prefer building within the villages. Only if necessary will we build outside the villages, under strict conditions.

### It Is Possible: Safety in Noordwijk

A safe municipality is one where people feel safe, at home and on the streets. Safety starts with respect and caring for one another. We tackle online hate and domestic violence, including violence against women. We invest in youth work, sports, and community centers. In this way, we give young people opportunities and prevent nuisance. Volunteers and neighborhood initiatives play an important role. Safety is not just about numbers; it is about how people feel in their own neighborhood.

### It Is Possible: Mobility in and to Noordwijk

D66 Noordwijk wants everyone to be able to travel easily. Traffic must be safe, clean, and affordable. Children, seniors, and people with disabilities deserve extra protection. We will urge the province to provide good public transport between our villages. Shared cars and shared bicycles help reduce the space needed for private cars. We will assist people who struggle to afford transportation.

### It Is Possible: Working and Doing Business in Noordwijk

A strong economy is important for everyone. We support entrepreneurs and reduce complicated regulations. We invest in education and new businesses that are ready for the future. Tourism remains important for Noordwijk, but in balance with nature and tranquility. We strengthen village centers and address vacancy by allowing alternative uses for empty buildings.

### It Is Possible: Good Education

Good education creates opportunities for everyone. We want high-quality schools, pleasant school buildings, and cooperation with sports and cultural organizations. Adults will also receive support in learning and language development. In this way, everyone can continue to participate in society.

### **It Is Possible: Volunteers, Culture, Heritage, and Sports**

Volunteers are indispensable. We support associations and ensure that volunteers are not burdened with too many regulations. We invest in sports facilities, culture, and the preservation of Noordwijk's heritage.

### **It Is Possible: Noordwijk Is for Everyone**

Everyone belongs. We provide proper support, prevent problems, and help people in time. We combat loneliness and ensure accessible facilities. Young people, seniors, newcomers, and people with disabilities must all be able to participate.

### **It Is Possible: Natural Noordwijk**

D66 Noordwijk chooses sustainability. We make Noordwijk greener and use energy more wisely. We plant more trees, ensure parks close to home, and encourage reuse and recycling. In this way, Noordwijk remains healthy for the future.

### **It Is Possible: Digital Noordwijk**

Digital services must be clear and secure. We help residents who struggle with digitalization. Personal data will be well protected. Technology should help people, not work against them.

### **It Is Possible: Children Are Our Future**

Children deserve a safe and healthy place to grow up. We always take their interests into account in our decisions. We ensure good youth care and strong support networks around young people.

### **It Is Possible**

D66 Noordwijk works together towards a fair, green, and strong municipality. Together, we will make Noordwijk better.
