

**Yes
we
can**

D66
maastricht

Our plan for Maastricht:

1 **Housing for everyone**
Build higher, speed up permits

2 **All-in on education & talent**
Investing in development, from cradle to career

3 **Building an economy of tomorrow**
Less red tape, more room for innovation

4 **The healthiest generation ever**
Preventing is better (and cheaper) than curing

5 **Inclusion: making the city stronger, together**
Greener, safer, and with room for everyone to join

Maastricht is a city of opportunity. A city that builds bridges and crosses borders. A city of people who get things done, not by talking endlessly but by taking action.

Here, we are proud of our traditions, and we look ahead to tomorrow. Maastricht wants to move forward. And it can.

If we choose building over blocking. If we choose room for entrepreneurs and innovation over red tape. If we choose strong schools, opportunities for talent, greener and healthier neighbourhoods, and more inclusivity, together, every day.

Progress requires choices.
Those choices make a difference.
On 18 March, vote D66.

Marlou Jenneskens
Lead Candidate
D66 Maastricht
