amstelveen

Over the past years, we have shown in Amstelveen what progress looks like: more affordable housing, the best schools, and a municipality that has become visibly greener and more sustainable.

On 18 March, together we choose freedom, connection and progress in Amstelveen. We choose a municipality where you feel safe. Where you are free to be yourself and make your own choices. Where you can find an affordable home, children are given the best opportunities, people as they grow older are valued and we look after their wellbeing, and we take care of a green, healthy living environment.

“What kind of neighbourhood do you want to come home to? That is exactly why your vote matters. In the municipal council, decisions are made every day that directly affect your life — decisions about housing, education, safety and the future of your municipality. D66 shows that progress is possible.”
